

15" Panel PC

15" Screen Multi-Media Kiosk Panel PC with Fanless 1 GHz VIA Industrial M/Board, 256 Mb RAM, 40 Gb HDD and Windows O/S

Our specially designed Kiosk Panel PC and screen system comes with integrated 15 " touchscreen and Mini ITX PC system. It is ideal for many kiosk and industrial solutions especially wall mount points of information.

The slim and functional design is the most outstanding feature of this product. This facilitates easy integration into many other kiosk units where space may be a premium. Our kiosk Panel PC Module, with its internal amplifier, and easily accessible ports, provides greater integration flexibility. Unlike other panel PCs it also means that you don't have to replace the entire module in the event of maintenance. As standard the unit comes with a 1 GHz via processor and 256 Mb RAM. Please see the "Quotation" page to see a price with your chosen form of storage media and Operating System. The unit is ideal for Windows XP Embedded or Windows CE
