## Desk Top Kiosk with 15" screen

This attractive Desktop Kiosk, compact in design includes a fully integrated open architecture PC. Although unusually shaped this Kiosk is constructed using non-proprietary components, making maintenance no different to a standard PC.

The ATX motherboard offers two PCI expansion slots, USB, Serial, Parallel and if required PS2 Keyboard and Mouse I/O ports. The rear peripheral cover is lockable to prevent unauthorised access. Its most important feature is that it's a portable, self-contained kiosk, designed for both desktop or wall mounted operation. - Dimensions: 430x340x380 mm (WxHxD). Weight: 13kg.

### Physical Specifications

<i>Dimensions (WxHxD)</i>	<b>430mm x 340mm x 380mm</b>	<i>Operating Environment</i>	<b>-25 to 40 Degress</b>
<i>Weight</i>	<b>25Kg</b>	<i>Audio</i>	<b>2 + 2 Watts</b>
